

CASE STUDY

About Gandhi Automations

Since 1996 Gandhi Automations Pvt Ltd has held a lead position in manufacturing as well as exporting, distributing and installing Entrance Automation Systems and Loading Bay Equipment that are problem free and easy to operate. Gandhi Automations specializes in designing, manufacturing and installing customised products conforming to the highest safety standards complemented with reliability and energy efficiency.

Customer Requirement

The user had complains about the present system being inefficient and non-feasible, so they needed a system by which their employee though on the move, can be a part of the organizations meetings, call and can be supervised upon.

Solution Offered

- ✓ The client is now connected between his head office and factory internally through UCM.
- ✓ This deployment was successful and it was a whole new system for them , they have been using an analog system with IP connection and calling on IP, so this was very new for them and plus they got connected between their two locations internally which means now they are cutting on the cost of Lease line.
- ✓ The Built- in features of UCM , Like no licensing, call recording and Voice mail to Email
- ✓ Product Installation At their Headoffice in Malad and their factory in Bhiwandi.

Challenges Faced

Yes, before finalizing our products they went through a lot of demo's from different Oem like Panasonic, alcatel, but they all were technically very less appealing and expensive.
