

Mobile Application Development

## CASE STUDY

### About Brihaspathi Technologies

Brihaspathi Technologies Pvt. Ltd., is an IT Products and Solutions providing company that came into existence in the year 2006. It is headquartered in Hyderabad. Within couple of years of its inception the company headed by strong leadership and dedicated workforce has established itself as force to reckon in the field of Software Development, Mobile Applications, E-Communications, E-Security Systems, Global Positioning Systems and Corporate Training. Brihaspathi Technologies Pvt. Ltd., has over 6500+ clients spreading across various industries & vertical markets.

### Customer Requirement

- ✓ They are looking for a single system which can integrate their calls through different modes like GSM and PSTN, with further flexibility on scalability. They also need all of their branches to get connected with the head office's IPPBX to reduce call costs within their employees.
- ✓ They also are looking for a video conferencing solution that can connect all their 30 odd branches for one of their new venture.

### Solution Offered

We gave UCM6204 Grandstream IPPBX along with Yeastar GSM Gateway TG400G at their Head office. IP Phones were installed in their Head office as well as in their branch offices. This reduced the call costs of interbranch calls and GSM calling got successfully integrated with their mainstream calling (PSTN) GVC3200 along with 50 Participants IPVideotalk provided for video calling with their Branch offices. With this solution, they are able to have review meetings with their branch office personnel.

### Competition Faced

Competitors like Matrix, NEC and People link are in race and upgradation from their existing EPABX system
