CASE STUDY

About List Group

LIST was founded in 1985 in Pisa, where the headquarters and R&D labs are still located.

Moving away from its beginnings in a strictly technological environment LIST has since been at the cutting edge of computer technology for conceiving and producing innovative systems for the financial world.

LIST has conceived, designed, developed and produced software and cutting-edge systems for capital markets, helping to create the first electronic Monetary and Financial markets. The company has developed platforms and solutions for trading on financial markets, which have been milestones in the evolution of that sector (Trading Systems).

LIST has also created integrated solutions for managing risk, audit and governance of organizations and financial processes (Governance, Risk & Compliance).

Customer Requirement

The End user was looking to connect their upcoming branch in Gurugram to their Italy and Mumbai office.

Solution Offered

This Deployment was successful and end user was very much satisfied by the products and the solution which was provided by us through the products and support, and Video supporting facility which is now running successful through our IPBX

Based on the requirement these are the products offered to them:

- ✓ **UCM6202:** Enterprise Grade look of the device, License Free product, Ease of installation and scalability as when required, features like IVR, Call Records , CDR and intercom and local line connectivity.
- ✓ **GXP1625 & GXP1628:** Cost of the product, Reliability and easier configuration when compared with other makes.
- ✓ **GXV3275:** The GXV3275 can make and receive SIP video calls from IP surveillance cameras for security alerts/alarms or for checking a camera's live video feed.

Competition Faced

Yes, They again did consult Sangoma and few other vendors like ZYCO, Matrix for the same, but the price difference were way high comparing to Grandstream and the features were very much restricted for the same.

About Cohesive Technologies

Cohesive Technologies is a Global Telecom Solution Provider on VoIP and IP Platform As well a leading Integrator and Solution Provider with the Best Innovative IP Solutions which adds value to Customers through a combination of different high end technologies for a true Converged Solution.

Working with Technology Partners like **CyberData, Grandstream, Epygi, 2N, Digium, Milesight, TelephonyKart & Yeastar** helped us delivering state-of-the-art-technology Products to Premise and Cloud based requirements for various companies that span across multiple segments.

The goal/purpose of the new deployment

The main goal was to get a solution to get a pure IP Telephony set up

Product Used

- **Grandstream UCM6202 IPPBX**
- **Grandstream Basic IP Phone GXP1625 & GXP1628**
