MOURI Tech has worked across verticals in both public and private sectors to solve complex business problems, providing holistic services leveraging its global presence.

Customer Requirement

They wanted to eliminate the licensing cost and wanted to shift to a more user-friendly system when it comes to their telecom.

Solution Offered

They can add any Video Phone or PA system to their Telephone network without the hassle of Licensing.

This installation has accomplished the following:

Maintenance free system, Cost towards licenses were eliminated, Possibility to integrate GSM to this system as and when required in the future and finally a cost effective solutions which helped in terms of cost cutting as far as their telecom is concerned.

Based on the requirement these are the products offered to them:

- ✓ **UCM6208:** Enterprise Grade look of the device, License Free product, Ease of installation and scalability as when required.
- ✓ **GXP1625:** Cost of the product, Reliability and easier configuration when compared with other makes.
- ✓ **GXP2170:** High Call frequency handling capability and ease of usage to the telephone operator with added advantage of extending more BLF keys as required by adding GXP2200EXT.
- ✓ **GXW4248/GXW4008:** To Bring their remaining analog Phones into the VoIP Network with comparably less cost and also the Gigabit Network ports were an asset.

Goal/Purpose of the new deployment

To install a system with no hidden or licensing costs and a user-friendly system to manage it as per changing requirements.

Product Used

- **Grandstream UCM6208 IPPBX**
- **Grandstream Basic & high end IP Phone GXP1625 & GXP2170**
- **Grandstream GXW4248/GXW4008 Analog Gateway**
