CASE STUDY

About Rising Star

Rising Star is an international reality television singing competition based on the Israeli singing competition HaKokhav HaBa (meaning "The Next Star") made by Keshet Broadcasting Ltd. The program format lets viewers vote for contestants live via the television channel's mobile app. This is the first reality television show in India which involves live audience voting. The show is broadcasted on colors TV channel in india.

Customer Requirement

The Customer wanted to have live voting using their mobile App and therefore wanted WiFi Access Points which can take high bandwidths as well as can also have thousands of registrations using very less number of Wifi APs so that thousands of live viewers can vote and do their ratings for the live dance performance.

Solution Offered

Grandstream WP7600 Wifi Access Point Supporting 450+ simultaneous registrations did a wonderful job registering thousand mobile App Users on four APPs making the solution very cost effective.
