CASE STUDY

About *Brigade Enterprises Ltd*

Brigade's residential portfolio includes penthouses, villas, premium residences, luxury apartments, value homes, independent living for seniors and award winning fully integrated lifestyle enclaves and townships. Brigade is among the few developers who also enjoy a reputation of developing Grade A commercial properties. The World Trade Center- Bangalore & Kochi, Software and IT parks, SEZs and stand- alone offices have top international clients operating from them.

The Group has been socially responsible and has vastly contributed to society by redeveloping the Sangolli Rayanna Park and the Shri Nadapraphu Kempegowda Playground in Malleswaram, Bangalore.

Customer Requirement

- They want the smart office solution by implementing UCM at hub location.
- They want to new IP Phones at the locations.
- Intercommunications within their employees where they want to reduce telephone bills.
- In further they are looking for some more IP Phones to cover their whole building also.

Solution Offered

We did install Grandstream **UCM6510** at main location (World Trade Centre) which is there in Bangalore with IP Phones (**GXP1615**), Epygi PRI Gateway (**QXE1T1**) and Operator Console (**GXP2170**). UCM6510 and Epygi PRI Gateway have been connected through Airtel PRI line. They do have different locations like Mumbai and Delhi. They are planning to do the same installation right there also. They are doing their inter communication as well as outbound and inbound calls also.

Challenges Faced

Earlier they won't be able to do call transfer, no IVR was there, intercom was also chargeable. After the installation of smart office solution they are availing the benefits of VOIP solution. They were using old technology based EPABX of Siemens where they won't able to avail all such facilities which we did.

About *Cohesive Technologies*

Cohesive Technologies is a Global Telecom Solution Provider on VoIP and IP Platform As well a leading Integrator and Solution Provider with the Best Innovative IP Solutions which adds value to Customers through a combination of different high end technologies for a true Converged Solution.

Working with Technology Partners like **CyberData, Grandstream, Epygi, Digium, Milesight, TelephonyKart & Yeastar** helped us delivering state-of-the-art-technology Products to Premise and Cloud based requirements for various companies that span across multiple segments.

Key Points

- UCM at main location with IP Phones and Epygi PRI Gateways for their PRI lines so now they are able to do intercom by dialing only extension numbers..

Product Used

- Grandstream UCM6510 IPPBXs
- Grandstream Basic IP Phone GXP1615
- Grandstream High End IP Phone GXP2170
- Epygi PRI Gateway
