CASE STUDY

About *Paras Buildtech*

Backed by a strong brand lineage, Paras Buildtech, incepted in 2002, is striding ahead 'Towards Tomorrow'. With timely delivery as our core strength, we have already delivered approx. 7.3 million square feet and are working on multi-scale projects.

Our focus on quality and excellence has seen us making steady ingress in an industry well entrenched with older brand names. By the dint of sheer hard work and the will to excel, we have chiseled a name for ourselves in the annals of the Indian real estate business; and today we have an absolute edge in the NCR region with a strong presence across Gurgaon, Noida, Zirakpur and Mohali. Our testimony lies in our results and in the past 10 years, we have delivered 9 projects.

Customer Requirement

Paras buildtech team wants to integrate surveillance system & paging solutions, IP telephony/Intercom Integrated to sip server and they require the intercommunication between the two SIP end-points of their Choice. i.e if some one wants to see the camera **He/She** can dial the same by the grandstream IP Phone Video Phone, If Someone wants to do some paging he can dial from any of the phone.

Solution Offered

We have offered Grandstream IPPBX along with IP Video Phones GXV3275 to make video call, & SIP Surveillance from a mobile phone using extension number. CyberData SIP Outdoor Horn Speaker to make paging, FXS Gateway to make calls from analog phones and IP Phones where opted.

Advantages to the user –

- Flat owner can do Audio & video intercom as per the end points used.
- Flat owner can access any camera by just dialing the extension no. of that camera as intercom.
- Visitor can talk to Flat owner through Video door phone / Video phone so that Flat owner can allow him to enter (if required).
- We have given complete integrated solution of Voice, Video and Surveillance.

About *Cohesive Technologies*

Cohesive Technologies is a renowned Global Telecom service provider working on the platform of IP and VoIP. We are working with an association of our technology partners such as **Cyberdata, Grandstream, Digium, Epygi, Milesight, and Yeastar** who support us in offering innovative products and Solutions to the premise or cloud-based need of different Customer requirements.

Cyberdata SIP Paging

CyberData IP paging endpoints, such as IP speakers and IP intercoms, they function as any other SIP endpoint would, giving you mass notification capability from any SIP phone on your VoIP network.

Grandstream IPPBX

Our UCMs range from small and medium business deployments to small and medium enterprise solutions.
