

# AK Home

Give residents the convenience and comfort to manage their homes.

The AK Home app is specially designed to be used with Akuvox's smart security solutions for homes. Alert handling, scene customization, home control, and smart intercom features like seeing and talking to visitors and door opening are all within easy reach. Thanks to it, you can keep track of your home status anywhere, anytime.

## AK Home

### Improving Home Living Experience

#### Total Home Security and Safety

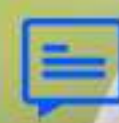

Manage various sensors, such as smoke detectors, door & window sensors, and motion sensors, as well as IP cameras.

#### Arm or Disarm Your System with Ease

Just tap the arm or disarm icons on the top of the home screen to enable the function.

#### Instant Alert Push Notification

Receive alerts of potential hazards instantly and keep track of your home in real-time.

#### Elegant Control of Your Home

Create scenes and schedules for your home systems and remotely control all smart devices.

#### Smart Intercom Features

Enjoy crisp audio and video calls with visitors and manage door access anywhere, anytime.

#### Access to All Event Logs

Simply tap on the menu tab to check the activity history of all smart devices.
