# Product Portfolio

## IP Voice Telephony & IP Hotel Phones

- 2 - 6 SIP accounts
- Common-area phones
- color screen, HD audio
- Noise-shield technology
- Enterprise-grade security
- WiFi Cordless IP Phone
- Bluetooth, wifi, BLF Keys

## IP Video Telephony

- 16 SIP ac, Video Calling
- Instant Messaging
- Bring Your Own Device (BYOD)
- Security and On-Premise Access
- Employee Access
- Huddle Rooms

## Answering Units

- Luxury design with top materials
- Smartphone as answering unit
- Home automation integration
- HD quality sound with ambient noise suppression

## SIP Door Intercom

- Intercom is a first access control device you will get in touch before you enter a building
- It has to look very luxury in villas or MDUs
- HD audio & video quality

## Unified Communications

- Upto 5000 Extension
- Redundancy, voicemail, Recording
- call center features
- Integrated with 3 party products
- Linkus App, Auto Dialer
- Automatic Call Distribution

## Smart Home Automation

- Smarter Home,
- Sweeter Life,
- Zigbee Hub.
- Intercom. Smart Home Control Panel in One

## IP Access Control & SW

- Slimline design
- Fastest mobile access
- Bluetooth, IP55 and IK07
- Controller and reader in one
- Encrypted two-way communication
- Perfect for the office or outdoor

## Gateways & ATAs

- E1/T1/J1 Ports
- FXS & FXO Ports
- Voice Conferencing
- concurrent calls
- Nat Traversal

## Audio/Video Conferencing

- Runs on Android 9.0 operating system
- Support for up to 300 participants and 120 video feeds per session; up to 10 simultaneous sessions
- video and audio recording
- 1080p Full-HD video
- Bluetooth, WiFi support
- Built-in Mic/Speaker
- PAN, TILT, ZOOM - camera
- IPVideoTalk Meetings Platform

# Product Portfolio continue...

## IP & Analog Industrial Phone

- Hazardous & Non Hazardous
- Water Tight, Weather/Water Resistant Phones
- Food Industry Industrial Telephone
- Correctional Institute Industrial Telephone

## Elevator Management

- Convenient for the residents to get in and out without cards to avoid residents

## Wireless Access Points & Routers

- OFDMA technology
- Range upto 300 meters
- IP66-level weatherproof capability
- GWN Cloud, GWN Manager, Embedded Controller

## SIP Surveillance

- Introduced H.265+ & Starlight & WDR
- Debut of the unrivaled Mini PTZ Bullet Camera
- New technologies: Auto Tracking, Advanced Heat Map and High-quality Deblur...
- Release AI ANPR solution & Pro Bullet Plus (with 3D Radar Module)
- Launch enterprise VMS

## Call center solutions

- Inbound/Outbound calls
- Contact center on cloud
- IVR, Auto dialer, Automatic Call Distributor
- Hosted Call Center

## Personal Collaboration Devices

- RJ9, USB & Wireless Headset
- USB Webcam supports 1080p Full HD video
- Designed for remote workers, contact centers and other busy environments.
- Comfortable, cost effective, durable headset for Soho, VoIP, IP-phone
- Light weight design, practical IP telephony sound quality

## Networking Switches

- GREEN Networking, smart LCD
- Port VLAN, Watch Dog
- IP65, support 30-60W each port
- Redundant Power
- Industrial switches (-40°C ~ 80°C)
- Solar UPS/ outdoor Weather-Proof Switches
- 250 m CCTV Long-Range switches

## SIP Public Address System

- SIP/Multicast/Informacast/Syn-App
- Serverless IP paging solution
- Communication with SIP devices
- Integration with VMS via ONVIF
- Loudest Sound in the market

# All About Snom in 10 Minute

snom

## More than 25 years of innovation and success

- A market leader for professional and enterprise IP phones and accessories
- Exceptional audio and sound quality for all products
- Universally compatible with the leading PBX platforms
- Quality awareness through in-house development and control of all products and services
- More than 7 million end-point installations worldwide
- More than 4,000 installation partners worldwide
- Snom has been part of the VTech Group since November 2016

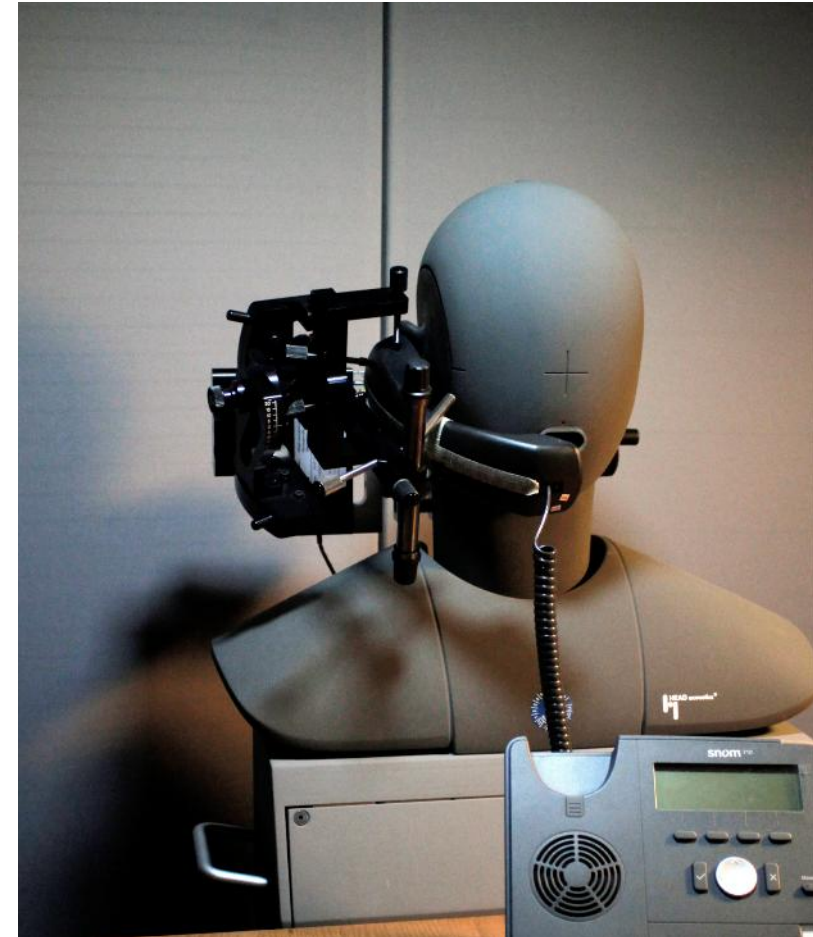

# German engineering: quality, durability & security

snom

## Engineered in Berlin

- Soft- and Hardware development
- Research and product design
- Audio labor and quality testing
- Energy saving products
- Lowest RMA rates in the industry

**Cohesive Technologies Pvt. Ltd**

## Snom telephones for the Hotel & Hospitality Industry

Snom telephones have long been used in the hotel and catering industry. However, especially in the area of room equipment, our devices were only ever of interest to a very high-end hotel class and were not really suitable as their range of functions was simply too extensive.

Nevertheless, the hotel and catering sector is very appealing to our value added reseller partners. However, due to the quantities required, this sector is extremely price-sensitive with its own rules and requirements.

Thanks to the expertise of our parent company, Vtech, in this industry, we have been working intensively on this topic and are pleased to be able to present our IP solutions specifically for this sector on the following pages.

## HD1xx & HD3xx Series IP room telephones

Whether it's used as a stylish accessory or a practical device – a room telephone must meet different requirements from a classic business device with which we've built our reputation.

From speed dial keys for the most important functions, such as reception, room service or SPA, to quick and easy personalisation, using printed labels or the need for daily cleaning, the hospitality industry has different requirements to the standard business device. The topic of individualisation using logos or colour variants is also often very important in this area.

## HDA Series (Analog)

There are still many analogue installations in the hotel sector in particular, especially in guest rooms.

In many cases, it is only worthwhile converting these to IP at great expense when a large scale renovation is due. Snom therefore also offers an analogue telephone series for these special cases. Outwardly nearly indistinguishable from our IP-based end devices, they offer an ideal and elegant solution for every guest room, with customised design if required.

# Emergency Telephone (IP & Analog)

Whether on the office floor, in a specialist store, in a hotel corridor or in a school canteen: there are moments when we can't think for long - and shouldn't look for long either. From allergic shock to food to medical emergencies or other potentially dangerous incidents, there are many things that require quick action.

With the Snom emergency telephone, you are prepared. The wall telephone cannot be overlooked - nor should it be.

Simply lifting the receiver automatically dials a stored number - such as reception, emergency services or the internal security centre. Alternatively, predefined speed dialling keys or the keypad can be used to reach specific numbers.

The Snom E303 was developed to make it as easy as possible to call for assistance even in stressful situations:

Traffic red - immediately catches the eye, even for those not familiar with the area.

E303 (IP)

E303A (Analog)
